

LABORTAORIO ANALYSIS "DA VINCI"
Headquarters Via Isella No. 89 27025 Gambolo' (PV)
TEL 0381-930898

**Method of collection of the URINE sample for URINOCULTURE.
(intermediate micturition urine)**

- Use for collection a sterile, wide-mouth, screw-capped container provided by the laboratory or available from a pharmacy.
- Wash the external genitalia well with soap, rinse thoroughly with water and do not dry.
- Open the sterile container immediately before use. Do not touch the inside of the container and lid.
- Dispose of the first stream of urine in the toilet then collect the next urine (intermediate micturition) in the container that should not come in contact with the body.
- Immediately close the container always avoiding touching the inside by carefully screwing the lid on.
- Deliver to the laboratory within a few hours of collection.
